After Surgery Instructions

In order to ensure proper healing after your pet's surgery, we ask that you follow these instructions:

- 1) Keep your pet confined and indoors.
- 2) Walk outside on a leash only (dogs).
- 3) Do not allow any active exercise (i.e. running, jumping, etc.).
- 4) Give medication as directed until finished (if dispensed).
- 5) Call for an appointment for suture removal in 7-10 days, or a recheck if skin glue was used.
